About Nft Colony Zone

Nft Colony Zone is briefly an nft city project. In this nft city, which we will call Colony Zone; There will be nft buildings, nft characters, nft equipment. Those who hold Nft in their wallets will have special tax benefits.

How it Works?

Colony Zone

Participants of the Nft Colony Zone platform interact with each other within a global ecosystem. Nft Colony Zone (NCZ), platform members have real economy opportunities, become real individuals in the digital ecosystem and can establish their own family structure. They can buy buildings, develop equipment and characters in the colony area. For example: A person who owns a hospital building earns the number of holders / 0.2% usage fee as tokens..

Benefits of using Nft Colony Zone (\$NCZ)

01

Why to choose (\$NCZ) ?

Colony Zone is a Binance-based decentralized exchange protocol. The Binance smartchain does not need any external dependencies to run.

02

Peer to peer network

Utilizing the power of the global community and the sharing economy to tear down the barriers and revolutionize the old & inefficient financial systems.

03

No Owner

Colony Zone is an unclaimed digital currency with no ownership, not attacked by Whales

04

True value creation

We will build Nft City with a real purpose instead of aimless projects, and turn it into a token that will earn its investors

Colony Zone \$NCZ

Nft City

The aim of the project is to bring together our real economy habits by using nft technology and digital ecosystem. Colony Zone \$NCZ, which is an Nft city, offers its investors; trade, social economy, gives the opportunity to bond with other holders.

City Features

Each investor will face the conveniences and difficulties of real life in the city. Holders can get nft characters, they can have nft buildings and equipment. They can earn fixed income from their nfts. For example, a holder who owns an Nft hospital will receive a weekly tax payment from all holders.

Family Wallets

Holders can associate with other holders, the holder can create their own family tree and make a name for themselves in the colony region. The family wallet will play a key role in dominating the token in the future. All groups will receive weekly rewards based on the number of tokens held by holders.

Holder-managed token

In the family wallet ranking, the first three family wallets cooperate with the developer, they can share their ideas on city taxation, project phase and advertising campaigns. The first three families become the ruling family of the city and are entitled to tax rewards.

Plans for the dev wallet

At the onset of the project, 16% of the total supply will be kept in the Dev Wallet in order to enable "NftColonyZone Burns". As Colony Zone grows, we will reward our holders by executing 9 manual burns, each one consisting of 3% of the original supply.

These burns will happen to celebrate the following number of holders:
